Lab Technician – Centralia, IL

About Us

Acuity has partnered with Fast Genetics to provide pork producers across North America and worldwide with breeding stock and innovative genetic and reproduction solutions. We work side by side with pork producers and industry partners to build the future of pork production together. It is a future where cutting-edge science and proven farm practices meet, ensuring the health of pigs, producers, and consumers for generations to come.

Opportunity

Acuity is currently seeking a highly motivated individual to fill a full-time Lab Technician position at our Riverview Genetics boar stud in Centralia, IL. The successful candidate would ideally live in the surrounding communities, but foreign recruits are welcome to apply. This position is responsible for assisting their colleagues in analyzing, processing and packaging semen for shipment to sow farms.

This position will include the following responsibilities and day-to-day functions but is not limited to:

- Completing all specific department duties while meeting the overall farm production goals,
- Providing a boar collection list to the barn,
- Analyzing semen using a computer program for specific quality parameters,
- Extending and packaging semen into doses based on customer needs,
- Cleaning the lab and all work areas on a daily basis,
- Maintaining all boar and semen records in a computer program,
- Preparing blood and semen samples for quality control and diagnostic submissions,
- Communicating with couriers on route and customer information,
- Working safely and wearing appropriate PPE while performing all job duties,
- Ensure the boar stud's biosecurity protocol is followed by all staff and visitors,
- Performing other general duties as required.

The successful candidate would ideally possess the following qualifications and experiences:

- Self-motivated, reliable, and a team player,
- Outstanding organization and communication skills and demonstrates attention to detail,
- Able to manage priorities and solve problems in a fast-paced environment,
- Driver's license and ability to work weekends,
- A college certificate or other specialized training in agriculture or laboratory procedures with 1-2 years of experience would be an asset,
- Shares in Acuity and Fast Genetics' core values.
