We empower our people by supporting and encouraging them to grow personally as well as professionally. We are currently looking for a full-time Information & Quality Management Specialist based in Breese, Illinois. The role involves working with large datasets and will report to our IQM Lead. This role requires 40 hours per week.

### **This position will include the following responsibilities and day-to-day functions but is not limited to:**

- Enter data generated within the Acuity breed to wean and wean to market sites.
- Build and modify reports required by personnel responsible for program and project coordination.
- Ensure accurate and timely data entry and validation of all data.
- Work with team members to continuously improve departmental procedures and processes to ensure efficiency and adherence to quality management system standards.
- Communicate effectively with members of the team regarding management of departmental initiatives and progress towards reaching goals set forth in the annual operating plan and personal SMART goals.
- Manage inventory of DNA samples and assist with routine sample submissions to an independent lab.
- Understand production cycle of the pig to the point necessary to identify and sort bad data from good data.
- Other duties as assigned.

### **The successful candidate would ideally possess the following qualifications and experiences:**

- High School Diploma or Equivalent.
- Associates Degree preferred but not required.
- 1+ years of experience working with large data sets and/or data entry or similar roles and responsibilities.
- Proficient with Numeric Data Entry.
- Excellent verbal and written communication skills.
- Proficiency with Microsoft Office Suite.
- Great team player and a self-starter with the ability to work in a fast-paced environment.
- Shares in Acuity and Fast Genetics' core values.
- Authorized to work in the United States
